

We've got lots of new items for your home and continually replenish the voids where items were sold. Our new storage and processing room with shelving built by Evan Rollins and board member, Heath Eaton is instrumental in easing the donation process. Your contributions of gently used household items are sold to support the operating needs of the center. You get a tax deduction, we get funds and someone gets a great deal! No losers when you donate to the General Store! Don't forget we still have books that are only \$5.00 per bag in our book room.
